PROFILE

I'm a front-end developer passionate about crafting fast, responsive, and visually engaging web experiences. I bring ideas to life with React, Next.js, and Tailwind CSS. Always focused on performance, clarity, and great user flow. I stay organized, work well solo, and thrive in teams where creativity and clean communication drive the build.

EDUCATION

Nigerian Army University Biu
Pre-Degree Program Mathematics,
Physics & Chemistry
2023 - 2024

SKILLS

TECHNICAL

- HTML / CSS
- JavaScript / TypeScript
- React.JS
- Next.js
- Vite.js
- Styled Components
- Git
- Flexbox / Grid

PROFESSIONAL

- Time management
- Attention to detail
- Problem solving
- Communication
- Quick learner
- Leadership
- Creativity

EXPERIENCE

FRONT-END DEVELOPER

Active Tech | January 2022 – Present

- Developed and maintained responsive, high-performance web applications using React, JavaScript, and Tailwind CSS.
- Implemented best practices for clean, maintainable code, testing, and deployment workflows.
- Collaborated with designers and backend engineers to deliver smooth, user-focused interfaces.
- Optimized website performance, accessibility, and SEO for improved user experience.
- Contributed to continuous integration and deployment (CI/CD) processes for faster, more reliable product releases.

FRONT-END DEVELOPER (PERSONAL PROJECT)

StephMart | July 2025 – Present

- Designed and developed StephMart, an affiliate marketing platform built from scratch to connect users with curated product deals.
- Built responsive, user-friendly interfaces using HTML, Tailwind, Typescript, and React.
- Integrated APIs and dynamic data handling to power real-time affiliate tracking and product listings.
- Focused on performance optimization, clean UI design, and seamless user flow.
- Gained hands-on experience managing both the front-end architecture and the deployment pipeline for a full-scale web app.

Hobbies

Photography, videography, gaming, and listening to music — capturing moments, creating stories, and finding rhythm in everyday things.

Sports

Football, basketball, volleyball, cycling, and jogging — staying active keeps my mind sharp and my creativity flowing.

Music & Interests

Big on good sound and good energy — I love exploring new genres, editing visuals to beats, and diving into tech trends and creative projects that blend art and code.
